Professional Summary

Frontend Developer with expertise in React.js, Next.js, and TypeScript, specializing in building scalable, high-performance web applications. Strong experience in UI development, state management, testing, and deployment with a proven track record of delivering impactful projects in fast-paced environments

Skills

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript
Frameworks: React.js, Redux, Next.js, Tailwind CSS, Bootstrap
State Management: Redux, Context API, Zustand
Testing: Jest, React Testing Library, Cypress
Build Tools: Parcel , Webpack, Vite, Babel
Version Control: Git, GitHub

Experience

Software Engineer – Persistent Systems Ltd | Dec 2023 – Present

- Built responsive web apps with React.js, Redux Toolkit & TypeScript
- Developed reusable UI components (dashboards, product listings).
- Integrated REST APIs with authentication & error handling.
- Optimized performance using lazy loading & code splitting
- Wrote unit & integration tests (Jest, Cypress).
- Collaborated in Agile teams using Git, GitHub, and Jira

Software Engineer Intern – LTI Mindtree | Feb 2023 – May 2023

- Contributed to internal dashboards using React.js.
- Enhanced UI & implemented reusable components.
- Integrated APIs for real-time visualization.
- Participated in Agile ceremonies (stand-ups, sprint planning).

Personal Projects

URL Shortener (Next.js, Node.js, MongoDB) – Live Demo

Developed a full-stack URL shortening application with **custom short link generation, click tracking, and analytics**. Integrated **MongoDB** for storing and retrieving original/shortened links, and designed a **responsive UI** for easy link management. Deployed on **Vercel** for fast and reliable performance.

Netflix GPT (React.js, OpenAI API, TMDB API)

Built an **AI-powered movie recommendation platform** inspired by Netflix. Integrated **ChatGPT API** for conversational search, enabling users to get personalized movie suggestions. Used **TMDB API** for fetching real-time movie/TV data and implemented **secure authentication** for personalized experiences. Deployed on **Vercel** for scalability.

E-commerce Website (React.js, Clerk, MongoDB, Cloudinary)

Created a **full-stack e-commerce platform** with **Clerk authentication**, **Inngest background jobs**, and a complete **admin panel** to manage products and orders. Implemented **cart and checkout functionality**, used **MongoDB** for user/order storage, and integrated **Cloudinary** for product image management. Deployed on **Vercel** for production-ready hosting.

Education

Bachelor of Technology (B.Tech) in Computer Engineering

NBN Sinhgad School of Engineering, Pune
2019 – 2023

- Graduated with a **CGPA of 8.85**
- **Relevant coursework**: Web Technologies, Data Structures, Software Engineering, Database Management Systems Relevant coursework: Web Technologies, Data Structures, Software Engineering, Database Management Systems

Awards

Received **High Five, Bravo, Key Talent, and Top Talent Awards** for outstanding contributions and innovation at Persistent Systems.
